

WE ALL HAVE THE #RIGHTTOEDUCATION

CIRCLE - Project "Inclusion of Refugee Children in Education" aims to support the inclusion of refugee/migrant children in education and reduce the level of school dropout, by creating innovative tools that will allow education professionals to effectively assess and validate their prior learning, thus enabling the continuity of learning of newly arrived refugee/migrant children.

In this context, **three booklets - for elementary school students (one book for 8 to 11 years old and second book for 11 to 13 years old) and for secondary school students (from 13 to 15 years old)** - have been created with the aim of helping teachers and educators to assess the prior knowledge of these children. The booklets are designed to address the challenges and needs faced by migrant/refugee children, with the minimum skills in the language of the country of origin and/or English, cultural differences and psychological trauma.

A training for educators (teachers, regional directors, school directors, school counselors/advisors, etc.) **on the use of the project tools will take place on April 23rd, 26th and 28th** at Project 12-15 in Amadora. The materials will be presented: their three booklets and their matrices and validation guides, and an analysis will be made on the issue of interculturality; methodologies and approaches. The instruments for the evaluation of prior learning will also be analyzed. Finally, participants will have the opportunity to share their experiences, suggestions and feedback for the use of the materials developed throughout the project.
